APOLLO

Made from a solid piece of machine-turned aluminium or brass, Apollo's conical forms balance end-on-end alluding to mass and weight. Its surfaces are deliberately left raw, with a real material presence.

APOLLO 39 PENDANT

BOUNCE

Graphic, energetic and with a youthful spring in its step, Bounce is a vibrant character. Its expressive shape is informed by the path the electrical current travels from lamp to lamp.

DONNA

The Donna pendant lamp projects the feeling of a soft pleated textile, although it's actually made from thin, light aluminium. The rippling form is inspired by the chic fabrics used in high fashion.

KANDINSKY

The Kandinsky pendant lamp is inspired by the abstract circle paintings from the artist of the same name. A sphere and a spear play the main roles in the handblown lamp's composition.

ROMB

Romb emerged as a result of Broberg & Ridderstråle experimenting with a rippled cardboard they use lots when modelling and developing architecture projects. The shape, a rhombus, emerged quickly and split into two forms; one larger than the other, which cast an interesting direct light upwards but also indirect down, over the base of the shape. The piece works well on narrow spaces like bookshelves or windowsills, and has a strong sculptural presence whether it's shining or not. Romb is made from custom-pressed steel with seamless edges and great attention to detail.

TURNER

Turner is a dynamic pendant lamp, composed with quiet minimalism and sculptural precision. A sphere is sliced into a series of orbits that create an ever-changing appearance.
